

Highly motivated and results-oriented front-end developer with 3 years of experience specializing in building intuitive, responsive, and scalable web applications. Proven track record of contributing to successful projects within fast-paced ed-tech environments, leveraging modern technologies like React, Redux Toolkit, and Tailwind CSS. Adept at full-stack development, efficient API integration, performance optimization, and collaborating effectively within agile teams to deliver high-quality user experiences.

Skills

Front-End Development: React, Redux Toolkit, Next.js, SCSS, Tailwind CSS, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design, Webpack, Performance Optimization, Web Accessibility.

Back-End/API: Node.js, Express.js, API Integration (RESTful), Authentication & Authorization (JWT, OAuth), SQL, MongoDB

Tools & Methodologies: Git, npm, CI/CD Pipeline, Deployment, Testing, Cross-browser Compatibility, Problem-Solving, Continuous Learning

Development Experience

Front-End Developer [Inupgro Pvt. Ltd.] [Jaipur, RJ] July 2023 – February 2025

- Developed and maintained highly interactive and responsive user interfaces for educational platforms using React, Redux Toolkit, Tailwind CSS, and SCSS.
- Collaborated closely with UI/UX designers and back-end engineers to implement new features, ensuring seamless RESTful API integration and robust data flow.
- Optimized application performance and loading times through techniques like code splitting, lazy loading, and efficient rendering, resulting in a significant improvement in user experience (e.g., reduced page load time by 1.5 seconds).
- Implemented pixel-perfect designs and ensured responsive design optimization and web accessibility (A11y) across various devices and screen sizes.
- Contributed to the CI/CD pipeline for automated testing and deployments, reducing manual deployment efforts by 25%.
- Participated in code reviews and utilized Jest/React Testing Library.
- Troubleshooted and resolved front-end bugs and performance issues, improving application stability.

Junior Front-End Developer [Renlight Education Pvt. Ltd.] [Hyderabad, TS] January 2022 – February 2023

- Assisted in the development of front-end components and features for online learning modules using React and JavaScript.
- Styled web pages and components effectively using SCSS and custom CSS, ensuring visual consistency with design guidelines.
- Contributed to the maintenance and enhancement of existing features, including bug fixes and minor improvements.
- Gained foundational experience in version control with Git and collaborating within a development team using Agile methodologies.

Other Experience

Content Management Lead | [Renlight Education Pvt. Ltd.] [Hyderabad, TS] Jan 2019–Dec 2021

- Led the document review and content management process, ensuring accuracy and adherence to educational and quality guidelines.
- Coordinated with content creators and educators to streamline content submission, review, and approval workflows.
- Implemented processes for efficient management of topic-wise content, contributing to a well-organized learning platform.
- Utilized content management systems and tools for tracking content status and ensuring timely updates.

Operation Executive | Teleperformance [Indore, MP] February 2018–September 2018

- Responsible for the document review process, ensuring accuracy and adherence to established guidelines.
- Managed and processed a high volume of documents efficiently, maintaining high standards of quality and compliance.
- Utilized internal tools and systems for tracking document status and reporting on operational metrics.
- Collaborated with team members to streamline workflows and identify areas for process improvement.

Education

Bachelor of Engineering (Electronics and Communication), Year 2013.
Rajiv Gandhi Technical University, Bhopal (M.P.),

Projects

1. **Personalized Learning Platform (Renlight Pvt. Ltd.):** Developed key front-end features for a personalized learning platform. This platform allowed students to access topic-wise content and teachers to upload content and track student progress. Utilized React, JavaScript, and SCSS to build interactive, responsive user interfaces.
2. **Education Management System (Inupgro Pvt. Ltd.):** Developed key front-end features for an education system. This platform allowed students, teachers, and education organizations to access it.
For students: Implemented features for job search, career path exploration, and personalized learning experiences.
For Teachers: Developed modules for content creation and upload, content management, and job search functionalities.
For Schools: Created interfaces for posting job opportunities and managing administrative tasks.
